Clinical programs

Your plan may require one or more of the following before you can fill your prescription:

- Prior authorization - Your plan's permission to get a medication
- Step therapy - Trying one medication before another
- Quantity limits - Allowing a certain amount of medication to be dispensed

The clinical programs are administered by OptumRx. To perform a clinical program review, your prescriber can contact OptumRx at 1-800-626-0072.

Zero-dollar copay program

Plan members pay a $0 copay for generic maintenance medications used to treat asthma, depression, diabetes, heart disease/high blood pressure, and high cholesterol. Tier 2 (preferred brand) vial insulins and blood glucose testing supplies are also included. **The $0 copay program is only available at in-house, community partner and Optum Home Delivery pharmacies.**

Specialty medications

All specialty medications are limited to a 30-day supply. Specialty medications can be filled through Adventist Health Specialty Pharmacy Services (California only: 916-406-0188), Optum Specialty Pharmacy (855-427-4682), or OHSU (Oregon only: 503-346-3370). Please refer to the OptumRx formulary, available at OptumRx.com or on the OptumRx app, to identify if your medication is considered a specialty medication.

Compounded medication

Compounded medications are subject to a $300 per claim maximum. When covered, compounded medications are subject to Plan coverage rules, including formulary restraints and clinical rules. Compounded medications, when covered, are assigned a "Tier 2 (preferred brand)" copayment. Compounded medications are only covered if determined to be medically necessary due to unavailability of similar or substitutable commercially-available medication(s).

Excluded medications

Here are some examples of products that are not covered by your benefit: cosmetic medications, hair growth agents, homeopathic medications, fertility agents, vitamins, fluoride products, over-the-counter (OTC) medications, OTC equivalents, medical foods and non-FDA approved medications.
